

RUTLAND, VERMONT

49th Annual Report

FISCAL YEAR ENDING DECEMBER 31, 1941

Your City

What it Is

What it Does

What it Costs

"For Liberty Under God"

"WE ARE NOW in the midst of a war, not for conquest, not for vengeance, but for a world in which this nation, and all that this nation represents, will be safe for our children. We expect to eliminate the danger from Japan, but it would serve us ill if we accomplished that and found that the rest of the world was dominated by Hitler and Mussolini.

"We are going to win the war and we are going to win the peace that follows!

"And in the dark hours of this day—and through dark days that may be yet to come—we will know that the vast majority of the members of the human race are on our side. Many of them are fighting with us. All of them are praying for us. For, in representing our cause, we represent theirs as well—our hope and their hope for liberty under God."

—President Roosevelt

(From the radio address delivered on December 9, 1941)

Foreword

The purpose of this report is to give to the citizens of Rutland an analysis of expenditures made by your City Government during the year 1941, with a review of activities and services rendered.

The problems that confront us are many and varied, but through the untiring efforts of all City employees, much has been accomplished.

The Schools are now able to offer a full trade school course for the youth of Rutland. Many of our young men will be able to take their places in defense industries during the war and to be assured of a desirable occupation after the war.

Constructive criticism is always welcome. Should any questions arise, the official records of the City are open at all times for inspection by any interested citizens or by the representatives of any civic organizations.

MAYOR'S MESSAGE

To the Citizens of Rutland:

It is with pleasure that I, as Mayor of the City of Rutland, submit my annual message to be incorporated as a part of the Forty-ninth Annual Report.

Inasmuch as the reports of the heads of the various city departments are detailed and comprehensive and show exactly where and how the money of the city has been received and spent, I see no need for going into an exhaustive discussion of the various reports.

However, there are a few items which I would like to call to the particular attention of the citizens of Rutland.

When I first took office in 1939 there was a deficit from the previous administration of \$98,054.08, necessitating a deficit tax of 75 cents, making a total tax for that year of \$4.45. Each following year the deficit has been reduced and I am now happy to inform the taxpayers of the City of Rutland that the deficit tax has been reduced to 45 cents, making a net reduction in the tax rate of 30 cents. Please bear in mind that this has been accomplished without any increase in our bonded debt.

Despite improved business conditions our welfare costs continue to run very high. Doctors' and hospital bills make up a good proportion of our welfare costs.

In the year 1941 real progress was made with respect to an airport for our city. At the special meeting held on September 9th, the voters authorized a bond issue of \$25,000.00 for the purpose of purchasing land in the Town of Clarendon for a municipal airport. As the result of this authorization, a little over 381 acres of land have been purchased. These various plots were surveyed by our Engineering Department and marble boundary posts set up. The Federal Government has already allocated the sum of \$422,000.00 for the construction of this Airport under the jurisdiction of the Civil Aeronautics Administration. Engineers of the United States Army surveyed the site several weeks ago.

The Vermont State Legislature, in the 1941 session, authorized the expenditure of certain State funds for the promotion of aviation and to aid and assist cities and towns in the selection and acquisition of sites for development or expansion of airports. The City of Rutland has already received the sum of \$8,000.00 from the State to apply against the purchase price of the airport lands. The sale of wood and timber on the Airport lands will net a profit estimated at \$1,600.00.

Several trips were made by me to Boston and Montpelier in an endeavor to do everything possible to insure work getting started as soon as possible. The latest information from Washington and Boston is that this airport project will be advertised shortly and work begun early in the spring.

When this airport is completed, Rutland will have one of the most modern and up-to-date airports in New England. This airport will serve as a vital line in our defense during these days of war, and in this air-minded world of today, will be of great value to the city when the skies again become avenues of peaceful commerce.

The parking problem of our community is similar to those found in every community of any size throughout the country. The increasing number of automobiles and the limited number of places to park cars creates a confusing situation. In the hope of finding a solution to this problem, the Board of Aldermen voted to make a trial of parking meters in the City of Rutland. This trial will be made at no expense to the city and after the trial period of six months, the voters will be given an opportunity of expressing their opinion as to whether or not these meters should be retained.

Additional recreation facilities are needed in our city. While there has been a gradual improvement in these facilities, there is still room for improvement as funds become available. In these days of abnormal strain, recreation is needed not only for our own people, but for those from other places who make Vermont and Rutland their recreation center and spend their money here.

The assistance rendered by the many Federal agencies is deeply appreciated. During the year 1941, Rutland received,

through various branches of the Work Projects Administration, wages and material totalling \$170,935.56. (A detailed report appears on page 72). I wish to express my sincere appreciation to Mr. Harold Radigan, State Administrator of the Work Projects Administration, and all departmental supervisors for their cooperation and courtesy.

We are now engaged in a war for the preservation of our way of life and the liberties that we all hold dear. Every one of us must do his or her part to aid in this struggle. Your City Government pledges its sincerest efforts to conserve both money and material, and at the same time give the best in public service and protection to the citizens of Rutland.

In conclusion, I wish to extend my heartfelt gratitude to all citizens of Rutland who are or will be members of the Armed Forces of the United States, the Vermont National Guard, and of Local Defense Organizations. I also want to thank the Board of Aldermen, officials and employees of the City of Rutland for the combined effort and efficient service which all have rendered during the past year.

Respectfully submitted,

HENRY B. CARPENTER,
Mayor.

Highlights of the Past Year

1. Passage of a \$25,000.00 Bond Issue by which approximately 371 acres of land were purchased insuring the City a suitable site for a flying field.
2. Flood control work on East Creek completed.
3. Various Civilian Defense units organized for our protection and safety.
4. Deficit reduced, assuring us of a tax rate reduction in the current year. Tax rate 1939—\$4.45. 1940—\$4.35. 1941—\$4.20. 1942 (estimated) \$4.10.
5. Inaugurated the practice of licensing bicycles as a safety measure.
6. Contracts executed for the installation of parking meters on a trial basis at no expense to the city, with the view to improving the parking problem.
7. Obtained Federal funds totalling \$170,935.56.
8. Stamp plan put into effect for distribution of commodities to the needy.
9. Numerous units of city equipment replaced with new units, and a new fire truck added to our fire fighting equipment. An additional patrol car and a motor cycle were added to police equipment.
10. Fire losses totalled \$27,045.65. The lowest in several years.
11. Incinerator constructed at the city dump.
12. 27 new houses and other buildings constructed, estimated value \$262,155.00
13. Concrete road program, as well as the concrete sidewalk and curbing program, was carried on (although somewhat curtailed due to shortage of labor) in conjunction with the Work Projects Administration.

EDUCATION

1. An addition erected at Rutland High School to provide space for a trade school department.
2. The machine shop is in operation twenty hours a day training men for defense jobs.
3. The schools have cooperated with numerous organizations to bring instruction in many fields to the people of our community.
4. The Meldon School was repainted outside and inside during the summer, and stokers have been installed at Rutland High School.

Recommendations for the Future

1. Assist and cooperate in every possible way in aiding our country to emerge successfully from the struggle in which we are now engaged.
2. Buy Defense Bonds and Stamps to the limit.
3. All-out cooperation with federal, state and local officials in furthering the Civilian Defense program.
4. Continued economy in order to ease the tax burden, particularly during wartime.
5. Extension of street paving program within the bounds permitted in view of the war program.
6. Close cooperation and contact with officials of the Civil Aeronautics Administration to insure all possible haste in the developing and completion of the municipal airport.
7. Increased efforts looking to a revision of the charter and ordinances.
8. Creation of a city-wide commission to advocate and promote the construction by the State of Vermont, of a three-lane paved highway over route 7. This is of prime importance in view of the progress made on the express highway in New York State to the Canadian border and paralleling the Vermont line.
9. Continued effort to secure new industries.
10. Prepare a planned Public Works construction program to insure employment for our citizens upon their return from service with the armed forces and wartime industries employment.

EDUCATION

1. Take every precaution to protect our children if the war is brought to our shores.
2. Further extension of our guidance program in order that our young people may be suitably placed for their life work.
3. Improvement of grounds at Kingsley, Lincoln, Meldon and Watkins Schools, installation of insulating material and stokers to reduce fuel costs and replacement of more of the antiquated plumbing equipment in school buildings.
4. A reduction of the number of teachers employed because school enrollment is decreasing.

Report of of the BOARD OF SCHOOL COMMISSIONERS

To the Mayor, City Council, and Citizens of the City of Rutland.

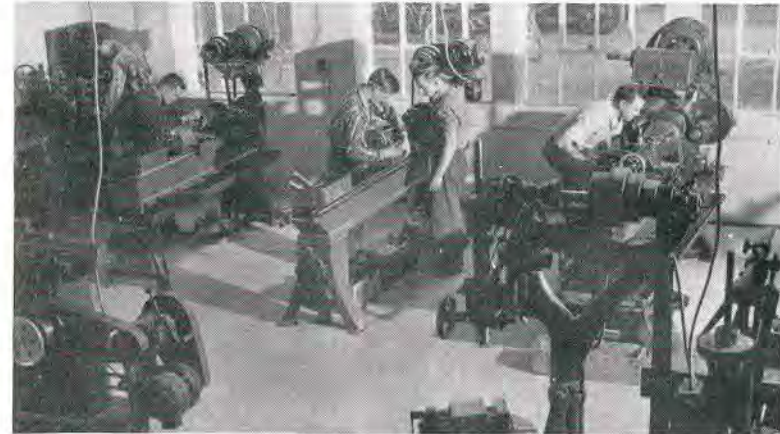

The Board of School Commissioners has been concerned about the fact that many of our young people, after leaving school, could find no opportunity for employment. We have been impressed by the excellence of the academic instruction furnished by the schools but this did not secure jobs for our youth. The feeling grew that steps should be taken to add more courses in the practical arts so that young men and young women could take positions in the trade and industry of our city and state. We reached the conclusion early this year than an addition to Rutland High School, to provide space for general shop work, automobile mechanics and machine shop practice, was a necessity. The people at the March election approved an expenditure of \$30,000 for this purpose. The building has been erected with costs, up to date, as follows:

1. General contractor.....	\$18,469.60
2. Electrical material, equipment and labor.....	2,533.82
3. Heating and plumbing material, equipment and labor.....	2,211.16
4. Architect's fees and other expenses.....	1,921.78
5. Shop equipment.....	1,746.44
6. Balance still to be expended.....	3,117.20

The cost to the city for labor was reduced by using W. P. A. labor whenever possible.

THE NEW SHOP FROM THE WEST

YOUNG MEN PREPARING FOR DEFENSE JOBS

Thirty high school boys are receiving practical instruction in automobile mechanics at the present time. Two evening classes with a combined registration of twenty or more spread the advantage of this course to out of school people.

High School boys will not be registered in machine shop classes until next September. At the present time the machine shop is operated over twenty hours a day as a part of the defense program. Four classes of ten or more persons each are receiving instruction suitable for beginners or more advanced instruction to fit them for promotion in the shops where they are now employed.

The major part of the equipment has been paid for out of defense funds furnished by the National government. Machinery and material has been generously contributed or loaned to the school department by The Howe Scale Company, The Patch-Wegner Company, The Central Vermont Public Service Corporation.

The shops we have established have introduced problems difficult for people inexperienced in this field, to solve.

The industrial leaders of the city have responded to every call for help and by their aid the shops are running on a practical basis. These men, of course, are not without personal interest in the matter because they will get better men to operate their machines. The situation is a good example of the community cooperation that should prevail in all cases.

Our plans for the future involve the establishment of a trade school department which will further fit young people for jobs without forgetting their need for acquaintance with our cultural

heritage. We propose to offer a four year course in this department where about half the time will be spent in the school shops and the other half spent in the study of related subjects. The students who head their classes will probably be prepared to enter various types of technical schools for further study.

The school board is committed to the policy of paying good salaries to our teachers in the belief that success in school for the children depends to a large degree upon having a cultured and trained teacher. This policy makes it possible, in filling positions, to choose from the cream of the teaching profession and to hold teachers who prove their merit. The item in our budget covering salaries for teachers has tended to advance for the past eight years in spite of some reduction in the number employed. The table below shows the situation clearly:

	Total Salaries All Teachers	No. of Teachers	Average Salary All Teachers	No. of Pupils per Teacher-Aver. Membership
1931-	\$130,089*	88	\$1,478*	28+
1932-	125,775	83	1,515	30+
1933-	109,636	82	1,337	30+
1934-	105,921	83	1,276	30-
1935-	107,339	83	1,293	30-
1936-	113,580	85	1,335	28+
1937-	115,064	85	1,354	28-
1938-	128,869	83	1,552	27-
1939-	133,813	82	1,632	27-
1940-	132,229	77	1,717	26+
1941-	133,850**	79	1,694	25-

* To the nearest dollar.

** Actual salaries being paid in October 1941

The increase from an average yearly salary of \$1,478 in 1931 to \$1,694 in 1941 shows an increase of \$216 per teacher or a yearly addition to our budget for teachers salaries of \$17,064 each year.

The other items in our budget should be fixed at a prudent level so that school buildings can be kept in good repair and the favorable services rendered to our children may continue. We are like a private individual who has decided that a certain expenditure is essential to his welfare but who is unable to balance his budget on account of a fixed income. We have decided that, since it is the increase in teachers salaries which tends to throw our budget out of balance, the only thing for us to do is to increase the teaching load and therefore decrease the number of teachers

employed. This policy cannot be put into operation in any sudden or drastic manner without creating a hardship for our children. We have, therefore, decided to reduce the number of teachers for the next school year by four if we have sufficient turn over to warrant such a change.

This year we have been able to improve and expand the service rendered by our dental clinic. Dr. C. J. Speas, Dental Advisor, State Department of Health, ably assisted by the Rutland Dental Association and with the cooperation of the Rutland Hospital secured a dental interne for the hospital who has been giving part time for the dental work for needy children of the first three grades of the city. Dr. William Collins began his work here in October but unfortunately he was called for service in the Navy in December. The Zonta Club, cooperating with the late Mary A. Devlin, school nurse, started this excellent work several years ago and until this year our local dentists gave a limited amount of time to the service each week.

Through the courtesy of the Rutland Hospital and the Westinghouse Electric Company we have added to the science equipment at Rutland High School an X-Ray machine which was being replaced at the Hospital. Life has become more and more dependent on science so the knowledge made possible by this equipment is most welcome.

The cost of fuel is one of our larger items of expense. It has seemed to the Board for some time that a saving might be made in this item by the use of insulating material and the use of stokers at the large buildings. Acting on this belief, we installed automatic stokers at Rutland High School last April. On account of the addition at the high school which has made necessary certain adjustments in heat distribution, we have been unable as yet to realize a saving. We are convinced, however, that there will be a saving in the fuel consumed and a more uniform delivery of heat as soon as these adjustments are made.

Progress has been made this year in replacing obsolete plumbing equipment in the schools. Our equipment is either new or in good condition at High School, Kingsley, Lincoln, and Meldon; fifty percent of the old has been replaced at Longfellow and Watkins but very little has been done as yet at Dana and Park. We plan to continue replacing old equipment until all the toilets of the schools are modern. Schools are painted outside and redecorated inside about once in six years which keeps them in good condition all the time. We take pride in the fact that our buildings are adequate and in good condition.

The appearance of our school grounds will be much improved when we can replace rather dilapidated walks and drives, espec-

ially at Kingsley, Lincoln, Meldon and Watkins. The new playground area at Watkins would be more useful if a few hundred dollars were spent on grading. There has been an urgent demand on the part of the schools and other groups for additional assembly room chairs but our budget has not allowed us to meet these reasonable requests.

During the month of December 1941, letters were sent to the colleges receiving graduates of the Rutland High School from the classes of 1941, 1940, 1939 and 1938. Due to rapidly changing college conditions, and the closeness to mid-year examinations, many colleges could not give complete information at that time. However, the results of the inquiry are interesting and informative and, while incomplete, amply justify the confidence placed in our college preparation. Approximately one hundred forty graduates of these classes entered colleges from Maine to Michigan. Thirty-eight colleges replied, covering eighty-five students or about sixty percent. Many of these have been listed on honor rolls or "Dean's lists" as they are called, and a large percentage received grades that placed them in the upper third or upper fourth of their classes. Of those who entered and were reported upon, two left for social reasons, one failed, one joined the Army Corps, and one left for financial reasons. From these returns, it seems evident that our graduates are rather widely scattered throughout the country, that they are a credit to themselves and to the school, and that the colleges reporting are much pleased with our graduates and their preparation.

The people of Rutland have always been generous in providing for the schools of the city. The favorable response to our recommendations this past year is in harmony with public support for many years. It has been a pleasure to serve the people by acting as a member of the Board of School Commissioners.

Respectfully submitted,

BOARD OF SCHOOL COMMISSIONERS,
By F. E. Quigley, *President*.

Rutland, Vermont
February 2, 1942

Report of the SUPERINTENDENT OF SCHOOLS

To the Board of School Commissioners, the Mayor, the Board of Aldermen, and the Citizens of the City of Rutland:

In a report on the growth of children as a result of the school program, it is necessary to confine attention to one phase of that growth in spite of the fact that the child grows as a whole and not in parts. This year it seems appropriate to tell the story of the influence of the school on growth in citizenship. It will be admitted at once that the school cannot produce good citizens unless other factors in the community are favorable and unless other agencies are making contributions to the end in view. The best that can be said is that the school is a potent factor in one of the major values of a democratic society.

A child's growth in citizenship is dependent on three factors; heredity, environment, and choice. The school has no control over the first of these but can be an important influence on the other two. It has been the fashion to overemphasize the surroundings and think too little of personal choice. This writer admits the potent influence of environment but claims that determination, will to do, is still more vital. We need to provide more opportunities for children to make choices and to feel the thrill of the wise choice or suffer the pain of a bad one.

THE LITTLE CHILDREN COOPERATE TO MAKE UP THANKSGIVING BASKETS
FOR OTHERS

THIS CLASS IS LEARNING HOW TO PRODUCE A SCHOOL PAPER
BY WORKING TOGETHER

The schools can safely claim considerable virtue in the development of the ability and habit of cooperation. A part of this virtue results from the very organization of the school and is, therefore, a result of necessity rather than choice. But some of the best results, in this field, come because the stage is deliberately set so that the children will get practice in cooperation and know by experience its value.

Every school year brings to the child many opportunities to work with others and learn by experience the advantages gained by the process.

The child gets experience in working with a few of his class and later with the whole class. On many occasions it is possible to reach a higher stage of cooperation when the whole school unites on a project.

We prefer to do business with people whose honesty is unquestioned and who can be counted on to meet every obligation, great or small. These virtues shine with especial glory right now because we are engaged in ridding the world of certain leaders whose word is worth nothing and who consider honesty as a virtue of weaklings. Our schools are happy to say that every day the children have experiences which have for their purpose the development of these old fashioned virtues.

THE CHILDREN TAKE A HAND IN HELPING WITH THE LUNCH
FOR THE WHOLE SCHOOL

We depend on two studies, natural science and the social studies, to furnish many of the experiences which lead to honesty both personal and social.

During the last few years we have been giving more and more attention to natural science, the earth, the sky, the animals, and the plants which are always interesting. It may seem remote but the silent and unchanging laws of nature are vital in developing good citizenship.

In the social studies, geography, history, and related areas, the approach to citizenship is more direct. Children are taught that one must search for and examine all the facts before a conclusion is reached. We learn that America gives every person the right to believe his own beliefs, to think his own thoughts, and to choose his own way of life. We also learn that for these and many other privileges we assume the obligation to support ourselves, to improve our living conditions, and to play our full part as a member of a democratic society.

We believe in the right of children to play but try to have them see that other people have rights that must be respected and that damage done must be adjusted. The dependable and honest boy admits his responsibility and pays for any damage done.

THIS BOY IS PAYING FOR A STREET LIGHT GLOBE WHICH HE BROKE WHILE AT PLAY

The development of the qualities of leadership is said by many to be neglected to an alarming degree in the schools and other agencies dealing with our youth. Unless the teacher takes serious thought about the matter, it is easy to accept uniformity as a virtue and to attempt to pour all the children into the same mould.

In many ways the schools of Rutland are attempting to discover, encourage, and develop the qualities of leadership so vital to our existence, beginning with the elementary school and continuing, with increased responsibility, through the high school.

Unless the vast majority of our people believe in the ability of men and women to improve themselves and the conditions under which they live, democracy is doomed to a dismal failure.

Leadership is an essential quality in a democratic society. Equality is one of the cherished beliefs of the American people, so important that it found a prominent place in the Declaration of Independence and the Constitution. Confusion seems to exist in the minds of many people regarding the meaning of equality, some believing that equality means that all people shall be alike, have the same things, and think the same things. A better idea is that all shall have equality of opportunity and be equal before the law. In fact, any democratic society is bound to perish if it does not recognize a multitude of different talents and expect that people will arrive at different destinations and at different rates of speed.

CHILDREN HAVING A MEETING OF THEIR CIVIC CLUB. CHILDREN LEAD, TEACHERS IN BACKGROUND.

Faith in man as an individual with unique desires, abilities and possibilities is the basis of our society. During the course of our history, numerous institutions have been built up which furnish our people the opportunity to improve themselves and their surroundings.

THE SCHOOL PATROL DEVELOPS RESPONSIBILITY AS WELL AS LEADERSHIP

The schools have a rare opportunity to present under favorable conditions as many of these institutions as possible. The future of America depends upon the degree of pride we take in the democratic institution we have developed.

The American flag symbolizes all the institutions of our country and the progress we have made in respect for the rights of each individual as a chosen son of God.

In explaining the meaning of the flag and all that it stands for, The teacher has a chance to explain that in this country the right of each person to choose his religion, his way of life, and to enjoy the various freedoms shall not be denied.

One could discuss numerous American institutions for which the schools aid in building up abiding loyalties and through which the children are helped to grow into good American citizens. The library may be taken as a typical American enterprise which is dear to the hearts of all our people. Each elementary school has a substantial library and four of them have rooms set aside for this purpose.

We are exceedingly proud of our high school library. A very competent librarian and a good assortment of books makes this room one of the most attractive in the school. The good habits of reading, analyzing, and reflecting are quite likely to be acquired here.

THE RUTLAND HIGH SCHOOL LIBRARY

We could be much surer that all our young men and young women would be good citizens if two glaring errors in our methods did not exist. We labor under the delusion that if we desire good citizenship all we need to do is to direct the schools to produce good citizens. The task is not as easy as that. If we take the matter seriously, it will be necessary for every citizen, official, and organization to take a hand. Many of the practices of adults will have to be modified in view of their influence on youth. Hitler has staked much on producing the kind of citizen he wants. We will have to beat him at his own game by doing a better job with our youth in a democratic way.

I am convinced that we have robbed our youth of some of the opportunities to grow up by guarding him too closely and preventing him from making the mistakes which are necessary to the process of growth. Children need to take risks which may result in broken bones. Broken bones now are better now than broken ideals later.

Many times both the home and the school conspire, unwittingly to produce a hot house plant which evaporates in the sun of daily life. We would often do better if we did not do as well.

Many of our principals and teachers have contributed to this report. I wish to make special mention of Miss Lucy Doane who designed the picture at the beginning of the report, Mr. Andrew J. Boratis who took all the pictures, and Mr. Ellery R. Purdy who helped with the content.

Respectfully submitted,

W. W. FAIRCHILD,
Superintendent of Schools.

RUTLAND FREE LIBRARY

RUTLAND FREE LIBRARY

Report of the
LIBRARIAN

City's appropriation—\$6,500.00

To the Honorable City Council:

Wartime projects necessarily effect the adult readers, but as the young people are making more use of the library, the general circulation did not decrease.

Our reference work continues, but in a different form. Not so much material is needed for club papers, but many students come for assistance on various school subjects. Encyclopedias, atlases, almanacs, year books, and volumes of bound magazines, whose contents are available through indexes, are used to a great extent. This transition in reference work is due largely to the constant change in every phase of life, science, and field of conflict. Politically, socially, and economically, as well as geographically, we are changing day to day, so current magazines and timely reference material are of vital importance.

The blue prints, surveys, and records which were given to the library from the Leonard Croft estate have been catalogued, and are now available for those interested. These records give interesting data concerning many towns, old roads, the cemeteries, homesteads which have passed on to other hands, also surveys of places where accidents have happened or crimes committed.

The Herald files which begin with 1936 are now in order and placed in the room over the Vermont section.

To celebrate the Vermont Sesquicentennial we exhibited articles made in the State, displayed books, pamphlets and maps pertaining to Vermont, and also sent lists of Vermont books to the schools.

The Junior Department conducted a story hour on Vermont and also an essay contest.

The circulation for 1941 was 113,616 which is an increase of 1,649 over the 1940 record.

The largest daily circulation was February 15th, when 711 books were borrowed, and the smallest day's record was Dec. 24th, when only 147 books were loaned.

The average daily circulation from the Library was 361, and the average monthly circulation was 9,223.

778 adults registered at the library for borrower's cards.

9,670 volumes were repaired, this number shows that many hours are profitably spent in prolonging the life of a book.

60 magazines were subscribed for, and 47 donated.

The library was open 306 days for circulation, and 52 Sundays for reading and reference.

Thanks are due to people who have contributed books, flowers and other gifts to the Library. I also wish to express my appreciation to the Rutland Herald for printing of library items, to the Trustees, and other members of the Staff for the cooperation which I have received during the year.

The following is the statistical record of the Library for the year 1941:

758 books were added to the collection, of these, 547 were purchased, 59 were gifts, 21 magazines which were bound, and 131 transferred from the pay collection.

138 books were replaced and 367 withdrawn. The total number of books in the Library, January 1, 1942 is 34,225.

CYNTHIA M. GORTON,
Librarian.

Report of COMMISSIONER OF PUBLIC WORKS

The Honorable City Council, Rutland, Vermont:

Gentlemen:

In compliance with the charter, the annual report of the Department of Public Works and associated Federal and Special Projects for the year ending December 31, 1941, is respectfully submitted.

Departmental balances of \$8,768.93 have been returned from the unexpended appropriations for the use of General City Expenditures. The gross operating costs of the department were \$96,728.33, a decrease of \$6,000.50 over the corresponding period of 1940. This is the second consecutive year that operating costs have been reduced; the department having operated at a savings of \$12,179.62 over the year of 1939.

During the year of 1941 a new compressor, a new industrial tractor—equipped with a sidewalk snowplow, and a second-hand touring car were purchased. The equipment of the department is now in first class condition. New tires were purchased for the greater portion of the truck fleet prior to the tire rationing now in effect.

Supplies for use in 1942 have been stocked in anticipation of the present emergency. The Street Department has a one year supply of motor oil and anti-freeze on hand. Copper pipe and fittings for the use of the Water Department are stocked, as are the greater portion of our office sundries.

Although several major accomplishments were either undertaken or completed during the year of 1941, the most outstanding achievement was the clarification of our water supply. Comparatively clear water was delivered to consumers throughout the spring thaw period.

An analysis of the water as of April 4, 1941 was as follows:

	Sample from Mendon Brook	Sample from Under-Drain Supply
Turbidity	Distinct	Slight
Sediment	Considerable	Slight
Color	35.	15.
Odor	0	0
pH	7.3 P.P.M.	7.3 P.P.M.
Hardness	30.	32.

While the instituted system is not a "cure-all" for the many recurrent problems of our water supply situation, it has undoubtedly saved the taxpayers many thousands of dollars. The proper care and operation of this installation will prevent our citizens from being subjected to the use of the coffee-colored liquid to which they had long become accustomed.

The East Creek Improvement project was continued throughout the year. Work was rushed during the winter months on the construction of the concrete wall in order that it might be completed before any major spring thaw. The continuance of the remaining work was carried on in conjunction with the routine work of the other departments to conserve funds for the labor expenditures, since much of the material used was excess excavation from the concrete road projects. The efficiency of this much needed improvement awaits trial by the elements. It is antici-

pated that any flood, excepting one of 1927 proportions, will be handled without loss of life or property. The nearly unanimous cooperation of the abutting property owners was appreciated by the public works department. Persons living in the much flooded areas owe these abutters more than a mild cheer.

The '76 Bridge restoration was completed without incident. The total cost of this project was \$5,783.79, of which the State of Vermont contributed \$4,839.51.

Much time has been given to the Airport project, both by the public works department staff and the Aldermanic Committee. A property survey of the proposed site was completed and markers set at every corner. Routine questionnaires were executed for the use of the various governmental agencies interested in the development of the project. All details pertinent to the cutting and disposal of the wood on the so-called Powers' property were transacted through the office after policies were approved by a Special Committee of which Alderman Hollis I. Loveland was the chairman.

A detailed analysis of the wood-cutting project is as follows:

Cost of cutting, drawing of cordwood and timber	\$2,904.21
Revenue to date.....	897.50
Approximate anticipated revenue	
Sale of 70 M. feet of timber.....	770.00
Sale of 577 cords of wood.....	2,885.00
Net anticipated profit.....	+\$1,600.00

The cordwood is being purchased and used by the Charity Department and should effect a considerable savings in fuel bills for this department during the winter of 1942-43.

The War Department, at a recent date, solicited the services of the City Engineer and it is assumed that many of the technicalities are being solved preparatory to the construction of this long-awaited project.

A new incinerator was constructed at the site of the City Dump at a net cost of \$2,970.02. The adoption of an ordinance regulating waste disposal and the operating hours of the City Dump has proven to be most effective. The incinerator has functioned in a satisfactory manner and no complaints have been received concerning the operation of the City Dump since the installation. Interested civic officials and property owners have complimented the department for having solved a long-standing Rutland nuisance.

Concrete pavements and widening projects were placed on the following streets or portions of streets during the 1941 season:

Church Street, Columbian Avenue, Crescent Street, East Street, Edgerton Street, Edson Street, Granger Street, Grove Street, Lincoln Avenue, Morse Place, Park Street, Pine Street, West Street and Willow Street.

A total of 22,756 square yards, or the equivalent of 2.13 miles, was laid at a cost of \$37,803.29. There is a cash balance of \$3,992.38 remaining in the account, plus a \$3,717.71 material credit, making a total of \$7,710.09 available at the start of the

new construction season. The material on hand includes approximately 1-1/2 carloads of welded reinforcement mesh. This quantity is sufficient for the construction requirements of 1-1/4 miles of new pavement, or approximately 60 per cent of the 1941 program as constructed. The purchase and delivery of this material before the present crisis will allow for the continuance of the road program in 1942.

The designing and construction of the Morse Place project was the highlight of the 1941 program. This street is now one of the finer residential streets of the City and the new pavement is greatly appreciated by the residents thereon.

Since the inauguration of the present permanent road program in 1939, the equivalent of 8 miles of new concrete pavement has been constructed.

A total of 5,530 feet of integral concrete curb and gutter and 7,997 feet of new concrete sidewalk was constructed during 1941 at a cost of \$5,753.02. The entire labor cost of this construction and a percentage of the materials cost were borne by the Work Projects Administration as in former years.

An innovation in the placing of sand boxes at strategic points throughout the City was effected during the past season. It is hoped that their usefulness to motorists will be proven. Householders, however, are cautioned not to use sand from these boxes for air raid precautionary purposes since it is treated with chloride.

1,150 feet of sanitary sewer was constructed on Water and State Streets in conjunction with the East Creek Improvement Project.

Storm sewers were constructed on Baxter Street, Crescent Street, East Washington Street, Lafayette Street, Lincoln Avenue, Melrose Avenue, Oak Street, Walnut Street and West Street. A total of 5,900 feet of 12 inch and 640 feet of 8 inch pipe was laid. These sewers are a part of a long range program inaugurated to relieve congestion in our present combined sanitary and storm sewer systems. Their ultimate value will be ascertained should a new sewage disposal plant be constructed in Rutland at some future date.

Water mains were constructed on the following streets: Gay Street, Highland Avenue, Hillcrest Road and Meadow Lane.

A total of 2,070 feet of 6 inch cast iron pipe, 5 new valves and 1 new hydrant was used in this construction.

Much of the excess material from the concrete road projects was drawn to out-lying streets. Lower Park Street was resurfaced with the macadam material from the Park and Granger Street project and is now a first class highway.

All routine maintenance work of the department was accomplished as in former years. Clean-up Week, the Aluminum Drive, the distribution of election booths and the moving of various W. P. A. professional and clerical projects were done with public works labor and equipment.

The mechanical operation of the Swimming Pool and the manual care of same was conducted by employees of the Water Department. Mr. Baldwin and his supervisory staff cooperated with the department in making the 1941 season both pleasurable and profitable.

The construction of the water filtration system and the incinerator; the purchase of new equipment and the present stock of materials and supplies has increased the inventory of the Department of Public Works. Our present inventory totals \$116,407.09 as of December 31, 1941 as compared with \$103,170.30 as of December 31, 1940. This inventory increase, together with the \$8,768.93 returned from unexpended balances, should materially assist in decreasing the general city deficit and tax rate for 1942.

The Department of Public Works was confronted with many new and diverse problems during the year of 1941. Priorities, lack of accustomed materials for use in new construction, and organizing for civilian protection created new conditions throughout the year. Countless numbers of forms and questionnaires were filed with the Office of Production Management. New designs and new materials were substituted in our building and road construction programs. All facilities of the department were readied in the establishment of a new service function for the protection of civilians during possible emergencies.

Credit for surmounting these new barriers in maintaining the various operations of city service, is given to those public-spirited citizens who have so generously donated of their time and services.

My most sincere personal thanks are extended to the employees of the public works and water departments. Any success in reducing expenditures is due in part to their spirit of cooperation in faithfully performing their tasks—their unflinching will to work at any hour in every weather.

In conclusion I wish to acknowledge with gratitude the kindly assistance and counsel I have received, without exception, from the Mayor and the members of the Board of Aldermen.

Respectfully submitted,

W. K. NICHOLS,
Commissioner of Public Works.

Report of the PENSION BOARD

To the Honorable City Council:

Gentlemen:

For the fourth year of its operation, the City of Rutland Pension Plan which became effective January 1, 1938 has resulted in a net cost to the city of \$20,048.57. This figure is explained as follows:

Total Premiums paid to Insurance Company	\$24,648.20
Total Benefits paid to Pensioners	3,085.68
	<hr/>
	\$27,733.88
Less total amount of Employee's Contributions	7,685.31
	<hr/>
	\$20,048.57

Since the start of the Plan, twelve employees have been retired, all receiving a minimum pension of \$400.00. Of these, four have died, leaving eight who are still on the retired list.

At the present time there are 165 contributing members, 89 from the School Department and 76 from the other departments of the city.

Two meetings of the Pension Board have been held for the granting of pensions, the issuance of permits to continue employment after the voluntary retirement age, and for the transaction of other business necessary to the successful operation of the Plan.

During 1940 the Board of Aldermen ordered a change in the Pension Ordinance whereby city employees called for military service will be exempted from making contributions under the Plan while in service; the city to assume same with the understanding that such employees retain all their privileges, and the length of service the same as if their employment had not been interrupted. To date two men W. J. Simonds and William Murphy have been called into service and are continued in the Pension Plan.

The budget requirements for 1942 will be \$20,000.00.

Respectfully submitted,

For the Committee,

ESME A. C. SMITH,
Chairman.

Report of the COMMISSIONER OF PUBLIC SAFETY

Salary of Commissioner—\$300.00 per year

To the Honorable City Council:

Gentlemen:

I hereby submit to you my report as Commissioner of Public Safety for the year 1941.

FIRE PROTECTION

Employees—20 full time Expenditures—\$47,317.91
Call Firemen—12

The following report as submitted to me by Chief Koltonski is a most commendable report, in that we had more alarms than ever in the history of the department, 555—a telephone number the department had for a number of years.

The loss being very small in comparison, which shows the efficiency of the department.

Chief has referred to the loss by death of Captain Stone. Leo was a faithful fireman, his heart and soul was in his work and he stuck to it to the very last.

Chief Koltonski's Report

The personnel of the Fire Department consists of one Chief Engineer, two Assistant Chief Engineers, two Captains, fifteen permanent men and 12 Call men. One of the call men is doing permanent duty in place of J. P. Hurley, who is in the army.

The Department lost by death on October 4th, Captain Leo H. Stone who had performed faithful duty in the Department since May 6, 1920.

The Department responded to 555 alarms during the year, this being an increase of 128 alarms over 1940 and the most alarms

ever received since the department was organized. The alarms were received as follows; Telephone 490, Bell 51 and Verbal 14. The Department also responded to 37 Special Service calls of various nature.

The total value of property involved was \$1,991,419.00, the total insurance carried was \$1,868,153.00, and the total insurance paid was \$23,757.54. The loss on two fires not covered by insurance was \$1,500.00, making a total damage of \$25,257.54 on fires that the Department responded to. There were claims paid amounting to \$1,788.11 on 48 fires that the Department was not called to, making a total damage by fire as far as could be ascertained of \$27,045.65. The value and insurance carried on these claims would increase the value and insurance carried on the above figures. This loss is \$19,408.24 less than that of 1940 with 427 alarms.

The Fire Department made less inspections during 1941 than in previous years owing to the great increase in the number of alarms. Making inspections takes two permanent men from the station leaving them short handed, and I would recommend that two more permanent men be appointed as soon as possible to make up for the time that inspections and other details take permanent men from station duty.

Captain James Rice was sent to the Chemical Warfare School at Edgewood, Maryland at the suggestion of the War Department and has been assigned to training men in this department and other departments throughout the state in defense against incendiary bombs and war gases.

During the year we have organized and trained an auxiliary squad of 36 men. These men have faithfully attended drills since May and have assisted at many fires. They are a valuable asset to this department and I recommend that they be covered by accident insurance to compensate them in case of an accident while performing duty as a fireman.

The addition of the new pumping engine gives this department a modern piece of fire equipment and gives us a reserve piece of equipment. The City Council should be congratulated upon their judgement in purchasing a truck at the time that they did as the price has increased considerable and the time to deliver one after it is ordered has been increased to almost a year.

I again would recommend that a modern drill tower be erected for the training of firemen.

The cost of operating the Fire Department was \$47,317.91, leaving a balance of \$17.92.

POLICE PROTECTION

13 Regular officers Expenditures—\$31,261.89
2 Retired officers

I feel that with the increased amount of traffic the past year, as well as automobile accidents to investigate, and the regular duties required to perform in this department, has been well handled by the officers and men connected with it.

We had installed as a trial, a safety zone at the intersection of Merchants Row and Evelyn St., and it has worked out very well and can be improved this coming year, as soon as weather will permit.

SCOUT CAR REPORT

Miles Covered 17890 Calls Answered 809
Arrests Made 126

There was bought and delivered to us December 26th, a new Chevrolet scout car, something that was very much needed.

MISCELLANEOUS DUTIES PERFORMED BY THIS DEPARTMENT

Arrests for all causes.....	246
Automobile accidents investigated.....	203
Number of cars tagged and fines paid.....	310
Number of automobiles reported stolen.....	9
Number of burglaries and breaks reported.....	28
Number of miscellaneous thefts reported.....	67
Number of business places and stores found open and locked by officers at night.....	167
Number of lights reported out by officers.....	38
Number of transients who applied and received lodging....	1305

POLICE CALLS

121 Intoxicants	23 Vagrancy	29 Automobile violations
30 Breach of peace	12 Violation City ordinances	
2 Petty larceny	29 Miscellaneous misdemeanors	

Again in closing I wish to thank Mayor Carpenter, the board of Alderman, the Chiefs of both departments, as well as all the men connected with them, for their loyal support the past year.

Respectfully submitted,

JAMES C. DUNN,
Commissioner of Public Safety.

OLD AGE ASSISTANCE DEPARTMENT

STATE HOUSE

Montpelier, Vermont

Net Cost to City—\$21,714.75

For the information of your taxpayers, the customary annual statement is presented for your city report.

Payments of Old Age Assistance to persons applying from your city amounted to \$50,560.25, during the year January 1, 1941 to December 31, 1941.

The number of recipients in December, 1941 was 213.

As this program touches every community and many persons, we believe the public should know the following facts:

Expenditures for Old Age Assistance in Vermont amount to over \$1,000,000 a year. All payments are made on a budgetary basis and only after complete investigation by a trained social worker employed under Civil Service regulations. Since the beginning of the program ninety-six cents out of every dollar available to the Department has been expended for the aged and only four cents used for administration.

The increased cost of living and its effect on the budgets of some 5,600 aged persons currently receiving assistance each month constitutes a serious problem, impossible to solve because it is a financial one. This situation also prevents grants of assistance to new applicants who, in many cases, are quite as needy and deserving as those already receiving assistance. The resources of this Department and its ability to make grants are determined by the State Appropriation, which is matched by Federal funds.

The advice and counsel of local officials and interested persons have been very valuable and are gratefully acknowledged.

Very sincerely yours,

W. ARTHUR SIMPSON,
Director.

Report of the WELFARE DEPARTMENT

Net Expenses:

Charity, General	\$46,980.72
Charity, Hospital	11,350.93

To the Honorable City Council:

I hereby submit the following report for the year 1941:

The appropriation to the Department of Charities and Corrections was \$50,000.00. The department collected \$1445.65 for support of families from other towns, \$1,310.25 from individuals; \$4,570.80 from other sources including \$3,000.00 refund from Food Stamp Account. The Aldermen appropriated \$5,000.00 for a revolving fund for the purchase of Food Stamps; \$1,350.93 was transferred to the Hospital Account. The Gross expense amounted to \$54,307.42 in addition thereto \$8,000.00 was paid out for Food Stamps of which \$3,000.00 was refunded by the Government leaving a revolving fund of \$5,000.00 returnable by the Government at the termination of the Plan. The net expense after refunds was \$46,980.72. A Balance of \$19.28 remained in Charity Account at the end of the year.

The appropriation for the hospital account was \$10,000.00. Refunds from Town and Individuals amounted to \$2,336.12. The amount transferred from the general account was \$1350.93. The gross expense was \$13,687.05 and the net expense \$11,350.93. There was no balance at the close of the year.

The W. P. A. Sewing Project under the supervision of Miss Catherine Culver made 9,839 garments which were distributed through the Charity Department.

From the Mattress Project, employing 11 people, 75 mattresses were given to needy families, also 150 comforters were given from the W. P. A. Quilting Project located at Madison Street School.

Wages to Rutland residents for these projects were paid by the Federal Government, \$17,393.86 on the Sewing and \$7,122.23 on the mattress project.

The three W. P. A. Nursery schools averaging 25 children each the year around, are partially sponsored by our Department.

The Federal Food Stamp plan has replaced the distribution of the Surplus commodities previously used, to a much better advantage to all participants.

At the City Farm 32 inmates have been cared for. 1078 transients were accommodated. Those applying for aid are required to work out amount given.

I want to thank Mayor Henry B. Carpenter for his assistance and all City Officials for their aid at all times and to those in the Charity Department for their efficient services.

Respectfully submitted,

OSCAR S. BERGSTORM,
Overseer of Poor.

Report of the DISTRICT NURSE

City's appropriation—\$450.00

To the Honorable City Council:

Gentlemen:

The Rutland Missionary Association sponsors the district nursing service of this city.

Its purpose is the care of the sick and infirm, the welfare of the aged, and the care of children in homes of the less fortunate.

Emergency cases have been taken care of through the generosity of interested individuals who have contributed clothing, furniture, and money. With funds thus received, medicine, milk, eggs, fruit, fruit juices, and food have been purchased.

Through the cooperation of the City Charities Department, Schools, the Sunset Club, and Churches, Thanksgiving baskets were provided for many deserving families.

At Christmas, gifts of money (\$30.00) clothing, and toys made it possible for me to remember 20 children. Christmas dinners were distributed to 130 families, through the generosity of interested individuals, clubs, fraternal orders of the city, churches, Mt. St. Joseph Convent, Red Cross, Salvation Army, and the cooperation of Mrs. John Davies of the City Charities Department.

Layettes, clothing, mattresses, blankets, and comforters were made under the direction of the W. P. A. Sewing and Mattress Projects of this city and were placed at my disposal to be given as I found need.

Families visited.....	189
Calls made.....	2497
Welfare calls.....	307
Prenatal calls.....	108
Maternity cases.....	30
Paid patients.....	34
Layettes distributed.....	36
Food.....	11
Clothing.....	73
Surgical dressings.....	35

Drugs.....	34
Furniture.....	14
Bedding.....	46

The expense for the year has been as follows:

Salaries for nurses.....\$1,231.00

This was met by the City's appropriation of \$450.00, and fees from paid patients which were \$478.00; the balance, \$303.00, was paid by the Rutland Missionary Association.

In conclusion, I wish to express my appreciation to Mayor Carpenter and all in the Charities department, for their splendid cooperation at all times.

Respectfully submitted,

Olive H. Westin
District Nurse.

Picture furnished by Rutland Herald.

MUNICIPAL SWIMMING POOL

Report of the SWIMMING POOL MANAGER

To the Honorable City Council:

I submit the following report as manager of the Swimming Pool, for the year ending Dec. 31, 1941.

It will be a source of gratification to all citizens of our community to know that the past season was a success, financially, since the pool not only paid expenses but showed a profit. The chief claim to success, however, rests with the healthful benefits furnished those people who took advantage of this pleasing source of recreation.

Under the guidance of a splendid corps of instructors, 18 boys and girls passed their Junior Life Saving Tests. A class of 12 were awarded certificates in the Senior Life Saving Group. During the past season an attempt was made to provide play

facilities other than aquatic sports. This attempt met with success and the many games afforded were greatly enjoyed by all the young people who attended.

During the season meets were held with teams representing the towns of Proctor and West Rutland. In all contests the Rutland team proved vastly superior. More meets could be scheduled if your manager were to receive his appointment earlier in the season.

I would like to suggest classes in defense service for your people be incorporated with other classes that are already available at the pool. There are many things that our young folks could be taught that would be of great value during this National Emergency.

I congratulate the group of very capable helpers on the fine work they accomplished. Attendants at the pool the past season were Miss Jean Hascall, Earl McGuire and John Nichols.

I wish to thank His Honor, Mayor Carpenter and the other City Officials whose cooperation in every endeavor made this short period of public service extremely enjoyable. At all times your City officers gave all possible help and they deserve a good measure of praise for the success of the 1941 season.

Report of the N. Y. A. CARPENTRY AND WORK SHOP PROJECT

From January 1, 1941 to January 1, 1942

Expense to City in 1941—\$868.11

Project Sponsored by Henry B. Carpenter, Mayor, City of Rutland

Throughout the year 1941, a total of 246 boys between the ages of 16 to 24 were employed on this project. Each youth received \$20.80 per month for 80 hours work, and in addition is eligible for enrollment in related training conducted by the State Department of Education in cooperating with local school authorities out of funds made available for that purpose by Congress.

In addition to making many items, such as cabinets, etc., for use of the Government, the boys have during the year ending Dec. 31, 1941, performed work for the City, which would have cost several hundred dollars.

Among other items, these boys refinished floors in City Hall, constructed new and repaired old buildings at the City Farm, repaired many desks and chairs for the public schools and several items of tool boxes, etc., for the public works, police and fire departments.

Wages and material paid by the Federal Government in connection with this project during the year 1941 amounted to \$18,285.93.

WM. C. McNAMARA, Shop Manager
CHAS. F. LORETTE, Shop Foreman

Report of the CITY ATTORNEY

The Honorable City Council:

Gentlemen:

I hereby submit my report as attorney for the City of Rutland for the year 1941.

The City was involved in a negligence suit for fifteen thousand dollars (\$15,000) during the past year, which suit was settled out of court by your attorney for the sum of seven hundred and fifty dollars (\$750). An action was also brought against the Commissioner of Public Works, but this action was dropped without costs to the City or the Commissioner after conferences between the attorneys bringing the case and the City Attorney.

A number of mental cases were taken care of through the efforts of the Overseer of the Poor and the City Attorney, and a large number of accounts due the Charity Department from other communities and individuals were collected by this office.

A large part of the City Attorney's duties consisted in giving opinions to the various officials and boards of the City government and every effort was made by this department to render such opinions as promptly as possible.

Various resolutions and ordinances were drawn by this office throughout the year including the preparing of a lengthy parking meter ordinance. A large share of the negotiations needed to purchase land for the municipal airport in Clarendon was carried on by this office, and to this work was added the preparing of deeds and title searches for the various pieces of property. With the fine cooperation of the City Engineer's office a number of necessary papers were prepared and sent to the various State and Federal agencies in connection with this project.

In cooperation with the Police Department a great number of letters were written to violators of our parking ordinances which resulted in the collection of delinquent fines.

This office worked with the City Tax Collector on the matter of collecting these obligations due the City of Rutland and a number of letters were written, suits brought, and tax sales drawn up on this City business.

Your attorney made several trips to Wilmington, Delaware on the matter of the Colonial Marble Company and it is expected

that either a bankruptcy sale or a tax sale will be held of this property within the next few months.

A number of leases, deeds, contracts and other legal papers have been drawn by this office during the past year on various details of City business not already mentioned.

In closing, I would like to express my appreciation for the courtesy and cooperation that I have received from all the various city officials and departments and especially to his Honor, the Mayor and the Board of Aldermen.

Very truly yours,

MILFORD K. SMITH,
City Attorney.

Report of the HEALTH OFFICER

To the Honorable City Council:

Gentlemen:

I herewith submit the following report for the year 1941.

The Health Department employs a health officer who also acts as plumbing inspector, and a meat and milk inspector.

Through this department is maintained the control of communicable diseases, inspection services for the maintaining of sanitary plumbing facilities, swimming pool and other places of public assemblage.

Contagious diseases reported and quarantined in 1941 were as follows:

German Measles.....	259
Chicken Pox.....	149
Measles.....	4
Whooping Cough.....	7
Scarlet Fever.....	5
Typhoid Fever.....	1
	<hr/>
	425

The City water was found to be contaminated only 3 times, the fewest times in a number of years.

Water from the Municipal Pool was found to be contaminated once.

The Health Officer made and approved of 25 plumbing inspections and investigated 25 complaints.

Clinics for immunization and vaccination for diphtheria and smallpox, respectfully, were held in the public and parochial schools and 287 children were immunized and vaccinated. This was done by Drs. Hodsdon, Reedy, and Bellerose of the Board of Health.

Respectfully submitted,

ALBERIC H. BELLEROSE, M.D.,
Health Officer.

VITAL STATISTICS

To the Honorable City Council:

I hereby submit the following report on Vital Statistics as filed in the Clerk's Office:

Total number of births registered in 1941..... 555

Total number of marriages registered in 1941..... 177

Total number of deaths registered in 1941..... 293

Store fronts and stores . . .	2	3	34,800.00	11,500.00

Report of the MEAT and MILK INSPECTOR

To the Honorable City Council:

Gentlemen:

I respectfully submit the following report of my activities as Meat and Milk Inspector for the year ending December 31, 1941.

I have made monthly inspections of all meat markets in accordance with the City Ordinance, and reported their condition to the Aldermen.

All animals killed in the City for human consumption have been inspected and doubtful carcasses rejected and destroyed. Inspection fees to the amount of \$1,128.50 were received and turned over to the City Treasurer, as follows:

503 cattle	@ \$1.00	\$503.00
112 swine	@ \$1.00	112.00
28 lambs	@ .25	7.00
1013 calves	@ .50	506.50
		<hr/>
		\$1,128.50

Periodic inspections have been made of all farms, dairies and creameries licensed to do milk business in the City, and their condition reported to the Aldermen. Milk License fees to the amount of \$456.00 have been received and turned over to the City Treasurer, as follows:

53 stores
48 restaurants (including stands at Fair Frounds)
19 dealers
2 wholesalers
75 producers

Approximately 450 milk samples have been taken, analyzed by the State Laboratory in Burlington, and a summary of the reports given to the Board of Aldermen. These reports have been published in the Rutland Herald.

Respectfully submitted,

NORMAN H. COX,
City Meat and Milk Inspector.

Respectfully,

FRED C. SPENCER,
CHARLES H. LANDON,
ROBERT D. SMITH,

Rutland, Vermont
December 31, 1941

Sinking Fund Commissioners, City of Rutland, Vermont.

REPORT OF AUDITORS

February 17, 1942

To the Honorable City Council:

Your auditors have audited the books of the City Treasurer, City Clerk, Overseer of Poor, Superintendent of Schools, City Constable and Sinking Fund Commissioners, from January 1, 1941 to December 31, 1941, inclusive, and we hereby certify that in our opinion, they have duly accounted for all monies received by them, as evidenced by the books and records on file.

We find the records of disbursements as shown by the City Clerk and Superintendent of Schools in agreement with the entries on the books of the City Treasurer. We have checked the cash and verified the bonds, deposit books and securities in the hands of the City Treasurer and Sinking Fund Commissioners and have checked incomes back to their original sources of entry and found them to be correct.

The books of the City Treasurer are in their usual excellent condition and very clearly show the city's true financial condition on December 31, 1941, and the result of operations for the twelve months period then ended.

Respectfully submitted,

FRANCIS J. CASAVAY,
WARREN G. GOODRICH,
A. TUTTLE PATTERSON,
Auditors.

BIRTHS REGISTERED IN THE CITY OF RUTLAND, VERMONT

For the Year Ending December 31, 1941

(Place of birth Rutland unless otherwise stated)

Name of Child	Sex	Date of Birth	Name of Father	Maiden Name of Mother
Absair, Gene Edward	M	Jan. 4	Paul Tuffield	Elza Alberta McCarthy
Abbott, George Lindell	M	July 11	George Alfred	Eva M. Fields
Alexander, Bernard Francis	M	May 23	Earl McKinley	Amelia Caccarelli
Alexander, Mary Louise	F	July 6	Carl Sherwood	Janette A. Robideau
Allen, Kerry Delmage	F	Jan. 24	Daniel Warren	Henrietta F. Delmage
Allen, Sherman Vail Jr.	M	Jan. 11	Sherman Vail Jr.	Janie M. Averett
Anderson, Albert John	M	Mar. 28	John Sigfrid	Mary L. Swanson
Anderson, Reva Helen	F	Dec. 13	Henry Oscar	Helen M. Scribner
Arthur, Hugh Gregory	M	June 22	Hugh Francis	Frances R. Mullin
Atwood, Jean Phyllis	F	Aug. 6	Parker Alanson	Elizabeth M. Martel
Ayers, Donald Sheldon	M	Sept. 1	Edson Wooster	Florence C. Haven
Badgwick, Peter Alexander Jr.	M	May 8	Peter Alexander	Margaret A. Kent
Bailey, Donald Lewis	M	July 18	Lewis Deming	Loretta M. LaChance
Baird, Charles William	M	Dec. 19	Clarence Carl	Joyce C. Crippen
Baird, Charlotte Berdella	F	Oct. 27	Clark Rufus	Mary C. Davis
Baird, Maureen Vaughan	F	Sept. 17	Raymond Clarence	Florence B. Vaughan
Baker, Linda Lou	F	Sept. 7	Harold Clyde	Ruth B. Gorsuch
Bania, Margaret Ann	F	Jan. 16	Stanley Joseph	Sophie C. Blicharz
Bardwell, George Robert	M	May 21	Melburn	Mamie E. Packard
Barewicz, Bernard William	M	Feb. 15	Bernard Anthony	Mary E. Kennedy
Baker, Janet Irene	F	Mar. 24	Alfred Gerald	Hazel F. Hall
Barrett, James Ronald	M	Dec. 6	Ronald John	Verna M. Frappier
Bartlett, Joseph Norman	M	May 15	Norman Edward	Rosetta M. Harlow
Bates, Frances Jean	F	Jan. 28	Oren Warner	Helen F. Scrutton
Bayer, Louise Ruth	F	Nov. 13	John Henry	Ruth L. Macumber
Bean, Marcia Elaine	F	Apr. 2	Charles Edward	Neva E. Fadden
Beardsley, Edgar Perry	M	July 6	George Howard	Amelia L. Boye
Beebe, Lucille Mary	F	Mar. 9	Myron John	Florence E. Parker
Becher, Donald Alvin	M	Jan. 17	Alvin Adber	Arlene E. Colby
Belden, Carol Grace	F	Feb. 2	Hubert Gleam	Marjorie B. Flood
Belfore, Sandra Ann	F	Dec. 6	Joseph Anthony	Mary M. Mayo
Bell, Bernard Guy	M	Aug. 11	Dana James	Eleanor R. Hebert
Bellomo, Salvatore Joseph	M	Jan. 23	Joseph	Antoinette Bellomo
Billings, Harold Edward	M	Feb. 2	Jesse Dyer Jr.	Lillian C. Tarbell
Birchard, Patricia Anne	F	Oct. 28	Earl Harrison	Anna E. Young
Birt, Terry Allan	M	Aug. 5	Victor Friend	Estelle B. Pratt
Bishop, Janet Marie	F	Mar. 6	Adrian Harold	Stella M. Lux
Bisette, John Joseph	M	July 3	John Joseph	Marion V. Cummings
Bixby, Howard Leroy	M	Apr. 7	Howard Arthur	Ruth L. Hawkins
Blaise, Mary Therese	F	May 25	Thomas Albert	Mary T. Collins
Blanchard, John Joseph	M	Dec. 25	Olivia Joseph	Faith E. Perry
Blanchard, Richard Vernon	M	June 29	Robert Vernon	Wilma D. Scofield
Bonneau, Mary Lean Patricia	F	Aug. 17	Eunice Raymond	Eva T. Gaudreau
Book, Beverly Jean	F	Dec. 30	Burgess Charles	Frances H. Bosworth
Borden, Leroy Anthony	M	Apr. 5	Everett Leroy	Camelia H. Grazeo
Bosworth, Carol Louise	F	June 2	Elliott Burr	Ruth E. King
Boudreau, Frederick Elroy	M	Sept. 16	Frederick Phillip	Veronica D. Kish
Bouchard, Francine Elaine	F	Feb. 12	Francis Levi	Miehlana M. Romano
Boule, Bonney Frances	F	May 16	Oville Paul	Rita M. Leonard
Boule, Lucille Marie	F	Oct. 27	Leo Louis	Lucy E. O'Bryan
Boye, Mary Teresa	F	Apr. 5	Robert Joseph	Kathryn E. Mahar
Boye, Patricia Ann	F	Mar. 14	Ralph Peter	Marion E. Harrison
Bowen, Judith Diane	F	June 29	Richard Thomas	Dorothy E. Bartlett
Bradley, Jean Elizabeth	F	Feb. 7	Ellery Alfred	Alice Mae Keith
Bratu, Dixie Lee	F	Dec. 26	Robert William	Betsy Ann Ross
Brayton, Joyce Gene	F	July 15	Kenneth Alvero	Catherine A. Durham
Bride, Judith Mary	F	June 27	Merald Andrew	Gladys E. Cox
Briere, Anthony James	M	Dec. 28	Henry Todule	Naomi M. Shackett
Broughton, John William	M	Aug. 19	William Edwards	Marjorie P. Henry
Briggs, Carol Anne	F	July 17	Edward Chrono	Ethel M. Eddy
Briggs, Ronald Edward	M	July 10	Edward James	Alba T. Carrara
Brink, Linda Ellen	F	June 22	Charles William	Virginia R. LaPenna
Brown, Carol Elizabeth	F	Nov. 29	Rufus Enoch	Julia P. Morgan
Brown, Kenneth Harold Jr.	M	July 12	Kenneth Harold	Grace M. Mills
Brown, Martha Ann	F	June 4	John Ralph	Virginia M. Wheeler
Brown, Marlene Elizabeth	F	Jan. 25	David George	Mildred H. F. Lofquist
Bruce, Marguerite Ann	F	Sept. 17	John Joseph	Julia A. Godleski

Name of Child	Sex	Date of Birth	Name of Father	Maiden Name of Mother
Brunelle, Jean Claire	F	May 17	Eugene John	Margaret J. L. Christmas
Bryant, Miles Taft	M	July 22	Kendall Stebbins	Harriot K. Miles
Buffum, Warren Jay	M	Aug. 30	Clarence Caleb	Elsie I. Fish
Bunnell, Carole Ann	F	Mar. 27	Arnold Moore	Charlotte M. Kimball
Burke, Patricia Anne	F	Apr. 6	Eugene Leo	Elizabeth I. Coreoran
Burke, Richard Francis	M	Mar. 31	Raymond Francis	Teresa C. Regele
Burney, Virginia May	F	May 29	Rollin Howard	Frances I. Morris
Burns, Nancy Ann	F	Sept. 10	Erwin Lee	Angeline R. LePlaca
Burns, Patricia Ann	F	June 19	Francis Henry	Edna A. Ranney
Burton, Gladys Erlene	F	Mar. 30	Cecil Hancel	Rita F. M. Smith
Butterfly, Elizabeth Ellen	F	Aug. 9	Edward Eugene	Betty L. Gould
Buxton, Sally Helen	F	June 26	Henry Edward	Winona McLaughlin
Byrne, Robert Joseph	M	Sept. 4	John Henry	Mae B. Durkee
Camara, Elizabeth Mary	F	Nov. 21	David Stanley	Mary E. Ludden
Camarda, Mary Frances	F	Dec. 25	Francis Thomas	Inez R. Cunningham
Cameron, Joan Marie	F	Jan. 14	Kenneth Joseph	Marguerite E. McDonough
Canney, Brenda Joyce	F	June 8	Edward Francis	Mary R. Belfore
Canning, Claudia Jean	F	Dec. 31	Charles Henry	Gladiola M. LaValley
Carabeau, George Edward	M	Feb. 2	Louie George	Marion L. Hall
Carlson, Barbara Ann	F	Mar. 7	Paul Bernard	Bernadette M. Fagan
Carbine, Stephen Anthony	M	Apr. 16	John Dugan	Muriel E. Brown
Carlson, Carlene Ellen	F	Dec. 2	Carl Everett M.	Hollin A. Hella
Carlson, James Edward	M	Aug. 7	Ernest James	Rena M. Summers
Carmody, Marilyn Ann	F	Aug. 1	John Thomas	Marguerite A. Loveday
Carnohan, Betsy Jane	F	Dec. 26	Robert Gillespie	Helen Tierney
Carrara, Fannie Mae	F	May 30	Louis	Beulah E. Dumas
Carrara, Richard Santa	M	Jan. 16	Joseph Paul	Gelsomonia D. Petraglia
